

Section 75 Policy Screening Form

Part 1: Policy Scoping

The first stage of the screening process involves scoping the policy or policy area. The purpose of policy scoping is to help prepare the background and context and set out the aims and objectives for the policy being screened. At this stage, scoping the policy will help identify potential constraints as well as opportunities and will help the policy maker work through the screening process on a step by step basis.

You should remember that the Section 75 statutory duties apply to internal policies (relating to people who work for the authority), as well as external policies (relating to those who are, or could be, served by the authority).

Part 2: Screening Questions

Introduction

1. If the conclusion is **none** in respect of all of the Section 75 categories, then you may decide to screen the policy **out**. If a policy is 'screened out', you should give details of the reasons for the decision taken.
2. If the conclusion is **major** in respect of one or more of the Section 75 categories, then consideration should be given to subjecting the policy to an EQIA.
3. If the conclusion is **minor** in respect of one or more of the Section 75 categories, then consideration should still be given to proceeding with an EQIA, or to measures to mitigate the adverse impact; or an alternative policy.

In favour of a 'major' impact

- a) The policy is significant in terms of its strategic importance;
- b) Potential equality impacts are unknown, because, for example, there is insufficient data upon which to make an assessment or because they are complex, and hence it would be appropriate to conduct an EQIA;
- c) Potential equality and/or good relations impacts are likely to be adverse or are likely to be experienced disproportionately by groups of people including those who are marginalised or disadvantaged;
- d) Further assessment offers a valuable way to examine the evidence and develop recommendations in respect of a policy about which there are concerns among affected individuals and representative groups, for example in respect of multiple identities;
- e) The policy is likely to be challenged by way of judicial review;
- f) The policy is significant in terms of expenditure.

In favour of 'minor' impact

- a) The policy is not unlawfully discriminatory and any residual potential impacts on people are judged to be negligible;
- b) The policy, or certain proposals within it, are potentially unlawfully discriminatory, but this possibility can readily and easily be eliminated by making appropriate changes to the policy or by adopting appropriate mitigating measures;
- c) Any asymmetrical equality impacts caused by the policy are intentional because they are specifically designed to promote equality of opportunity for particular groups of disadvantaged people;
- d) By amending the policy there are better opportunities to better promote equality of opportunity and/or good relations.

In favour of none

- a) The policy has no relevance to equality of opportunity or good relations.
- b) The policy is purely technical in nature and will have no bearing in terms of its likely impact on equality of opportunity or good relations for people within the equality and good relations categories.

Taking into account the earlier evidence, consider and comment on the likely impact on equality of opportunity / good relations for those affected by this policy, by applying the following screening questions and the impact on the group i.e. minor, major or none.

There are a number of other policies in place to ensure the promotion of good relations between employees to ensure they are comfortable in all work areas.

Additional considerations

Generally speaking, people can fall into more than one Section 75 category. Taking this into consideration, are there any potential impacts of the policy/decision on people with multiple identities?

Timetabling and Prioritising EQIA

If 3. or 4., is the policy affected by timetables established by other relevant public authorities? YES / NO

If YES, please provide details:

Please answer the following questions to determine priority for timetabling the EQIA. On a scale of 1-3, with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for EQIA.

Priority criterion	Rating (1-3)
Effect on equality of opportunity and good relations	
Social need	
Effect on people’s daily lives	
Relevance to a public authority’s functions	

Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for EQIA. This list of priorities will assist you in timetabling the EQIA. Details of your EQIA timetable should be included in the quarterly Section 75 report.

Proposed date for commencing EQIA: _____

Any further comments on the screening process and any subsequent actions?

Part 4: Monitoring

Effective monitoring will help identify any future adverse impacts arising from the policy which may lead you to conduct an EQIA, as well as help with future planning and policy development. You should consider the guidance contained in the Commission's Monitoring Guidance for Use by Public Authorities (July 2007). The Commission recommends that where the policy has been amended or an alternative policy introduced, then you should monitor more broadly than for adverse impact (See Benefits, P.9-10, paras 2.13 – 2.20 of the Monitoring Guidance).

Please detail proposed monitoring arrangements below:

This policy will be reviewed once every three years unless changes in legislation dictate otherwise.
